

EPA Potential Hazardous Waste Site Identification Region 6

A. SITE NAME Weaver Shipyard B. LOCATION (coordinates or exact street address) 1601 S. Childers C. CITY Orange G. OWNER/OPERATOR (if known) I. NAME Jerry Weaver Harris - contact H. TYPE OF OWNERSHIP (if known) FEDERAL STATE COUNTY The Weaver Shipyard (Weaver) site is a 7.76 acre property located on the west bank of the Sabine River at 1601 Childers Road in Orange. The company filed as a legacy entity with the Texas Secretary of State in 1975, however, research suggests that operations began as early as 1997. Weaver functioned primarily as a repair facility through 1940, after which they built minesweepers and sub chasers during World War II for the US Navy. After the war, production dropped dramatically as Weaver focused on tank barges and smaller vessels. The latest delivery date on a ship built by Weaver was 1981, and in January 1992 Weaver voluntarily terminated its corporate status. J. HOW IDENTIFIED EPA Region 6 Superfund Shipyard Initiative L. SUMMARY OF POTENTIAL OR KNOWN PROBLEM Based on current signage at the Weaver site, it appears that Bludworth Marine, a producer and servicer of a variety of marine vessels, is the most recent entity operating at the site. Bludworth has concentrated the builk of its work at a location south of the Weaver site, only sporadically conducting work at the site up to the present. Flooding associated with Hurricane Harvey may have led to a complete cessation of on-site activity. There was no evident site activity noted during a site visit conducted in December 2017. The current state of the site's environmental conditions need to be assessed.	confirmation that an actual health or environmental threat exists. All identified sites will be assessed under EPA's Hazardous Waste Site Enforcement and Response System to determine if a hazardous waste problem actually exists.
